## RXE 10-16C Electric Forklift Truck Great in the smallest of spaces

Sensationally slim dimensions of just under 2 metres high and 1 metre wide

Safe storage and retrieval at maximum height thanks to the extra stable mast design, low centre of gravity and modern assistance systems

Drive as if you were on rails, even with dynamic cornering, thanks to curve speed control

Innovative operating concept of the RX electric forklift family and smart STILL Easy Control on-board computer

Turn it any way you want, the RXE 10-16C simply fits. Always. The youngest and smallest member of the electrifying STILL electric forklift truck family is one of the greatest in terms of performance: compact as it is, it shines with a perfect balance of driving comfort, manoeuvrability and safety – even when things get really tight. Be it in HGVs, containers or narrow aisles, the RXE 10-16C is incomparably efficient and agile in the smallest of spaces thanks to its compact dimensions and sensitive steering. And that is precisely why it is so versatile. Whether it is in the food industry, at logistics service providers, in production supply or in joint warehouses of large retailers, the compact three-wheel counterbalanced forklift truck inspires as an efficient helper for loading and unloading HGVs or containers as well as for transporting pallets

in the warehouse. With a top speed of 12.5 km/h, it gets a lot done very quickly. And to ensure that not a single moment of its electrifying dynamics is lost for safety reasons, it is equipped with the proven Curve Speed Control as standard. This keeps you safely on track at all times – even in the tightest of curves. So when it comes to moving 1.0 to 1.6 tonnes in a space-saving way, the RXE 10-16C is the perfect choice! With its wide range of equipment options and assistance systems, it is also an attractive upgrade from the high lift stackers, with increased comfort and added safety. All this makes it the perfect successor to the legendary STILL RX 50, one of the best-selling electric forklift trucks in its class ever. Proof that the RXE 10-16C fits the bill. Always.
